Finished living areas only

Includes approximate measurements

### FREQUENTLY ASKED QUESTIONS

#### *Will 10 photos be enough?*

For a smaller home, 10 images will provide enough information to encourage a potential buyer to reach out to the selling agent or attend the open house to learn more.

For example, this set of 10 images could include:

1 Front Exterior; 1 Rear Exterior; 2 Living Room shots; 2 Kitchen shots; 3 Bedrooms; 1 Bathroom

#### *Can I order more images?*

Yes, you can order an extra 5 images for another \$10, or 10 images for \$20.

We just ask that you specify the additional angles in the project notes, or alternatively we will use our discretion to determine which additional angles we feel work best.

#### *I only need drone photos/floor plan. Can I just get the one service for \$25?*

The drone and floor plan add-on services are offered at a cost-effective rate as they are included in a comprehensive package deal. Please refer to our standard pricing menu for standalone services.

#### *Why are these floor plans priced lower?*

These floor plans utilize cell phone rendering instead of a Matterport camera and only include the finished living spaces and garage

#### *So what's the total cost for a package if I want 15 photos plus drone photos and a floor plan?*

The total cost for a package like that would be \$185. Here is the breakdown:

10 HDR photos: \$125

Extra 5 images: \$10

Drone photos: \$25

Floor plan: \$25
